

# Get a Free Tree

And help make your  
neighborhood  
healthier and  
more beautiful!

Oakland needs more trees, and you can help. Residents of the Oakland flatlands can apply for one or more **free trees** to be planted along your sidewalk or in your yard. Our team will help you choose suitable locations and kinds of trees, including many species that require very little water. We can remove a square from the sidewalk if you don't have open soil. Our volunteers will plant the trees for you, or with you!
