

Trees for Oakland, a non-profit volunteer organization, plants trees all over Oakland. Trees improve the air, counter the effects of global warming, beautify our neighborhoods and increase property values. Want to add a tree to your sidewalk strip?

To get started, please complete our “**Tree Request Form**”. The form can be accessed at treesforoakland.org > “Request a Tree” or by using the QR code below.

Once the form has been received, a volunteer from our organization will contact you. Please be patient because we are working through a backlog of requests. If you have any questions about the program or ***if you want to volunteer***, please contact us at treesforoakland@gmail.com

Form date: 4/8/22

Trees for Oakland is a volunteer organization under the banner of Oakland Parks and Recreation Foundation
